

How to set up the "Alarm Voice" for Android

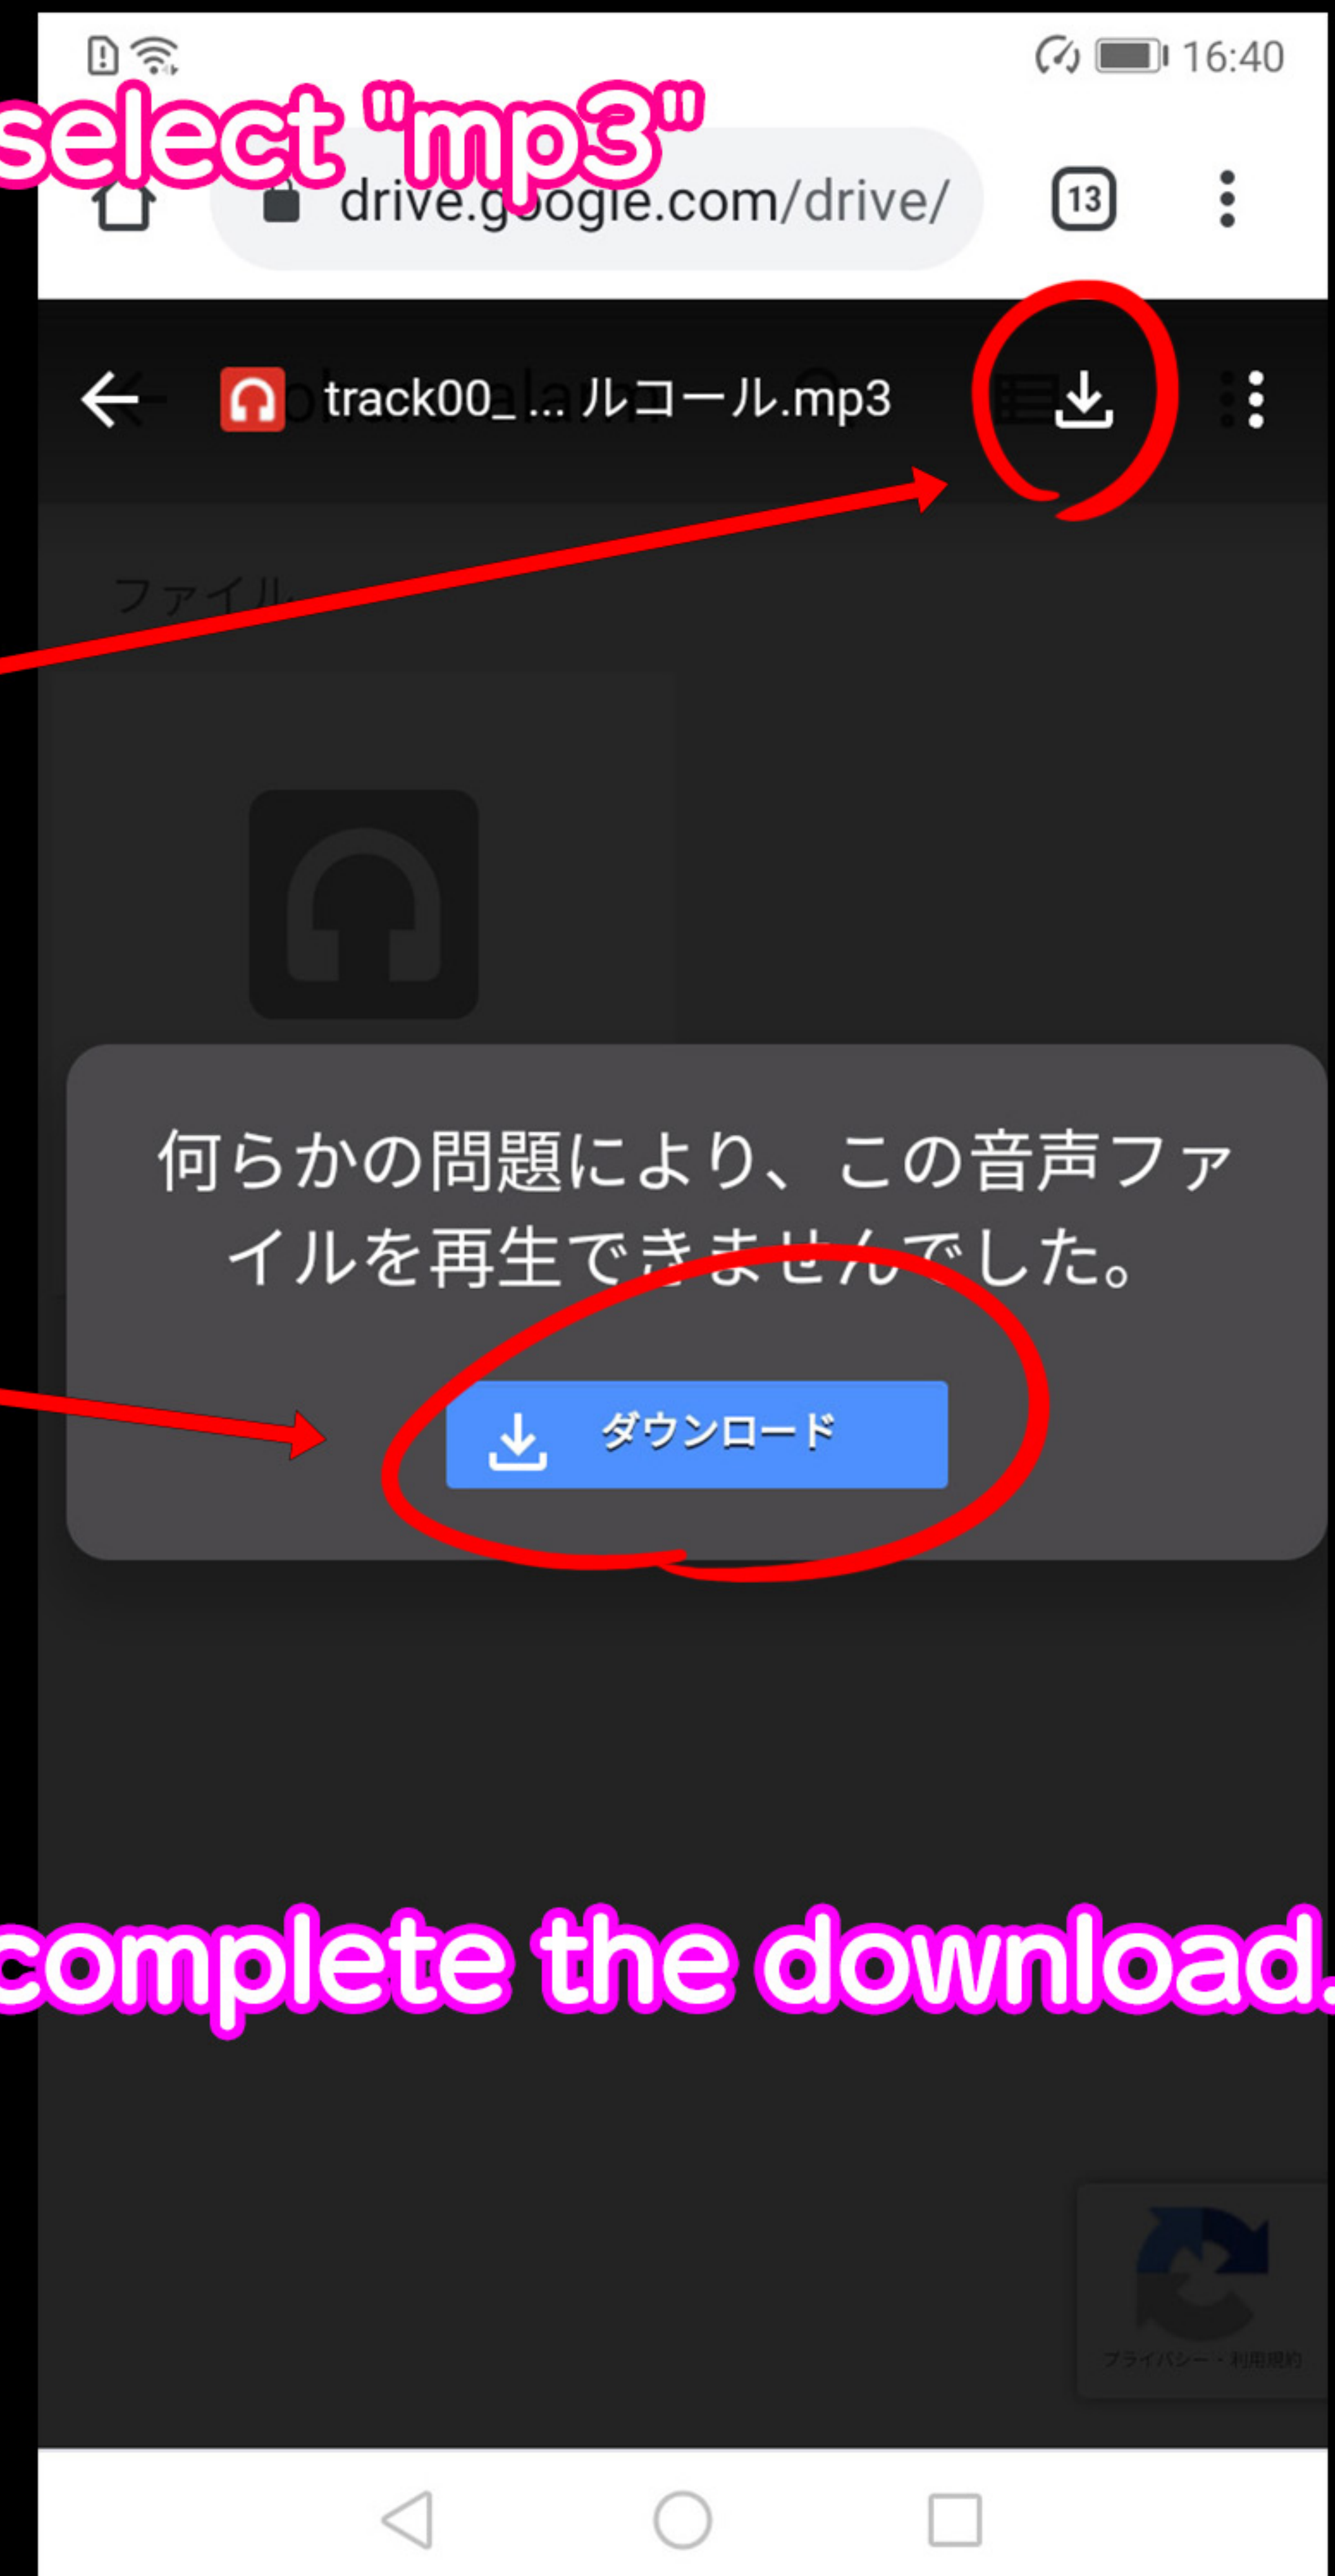

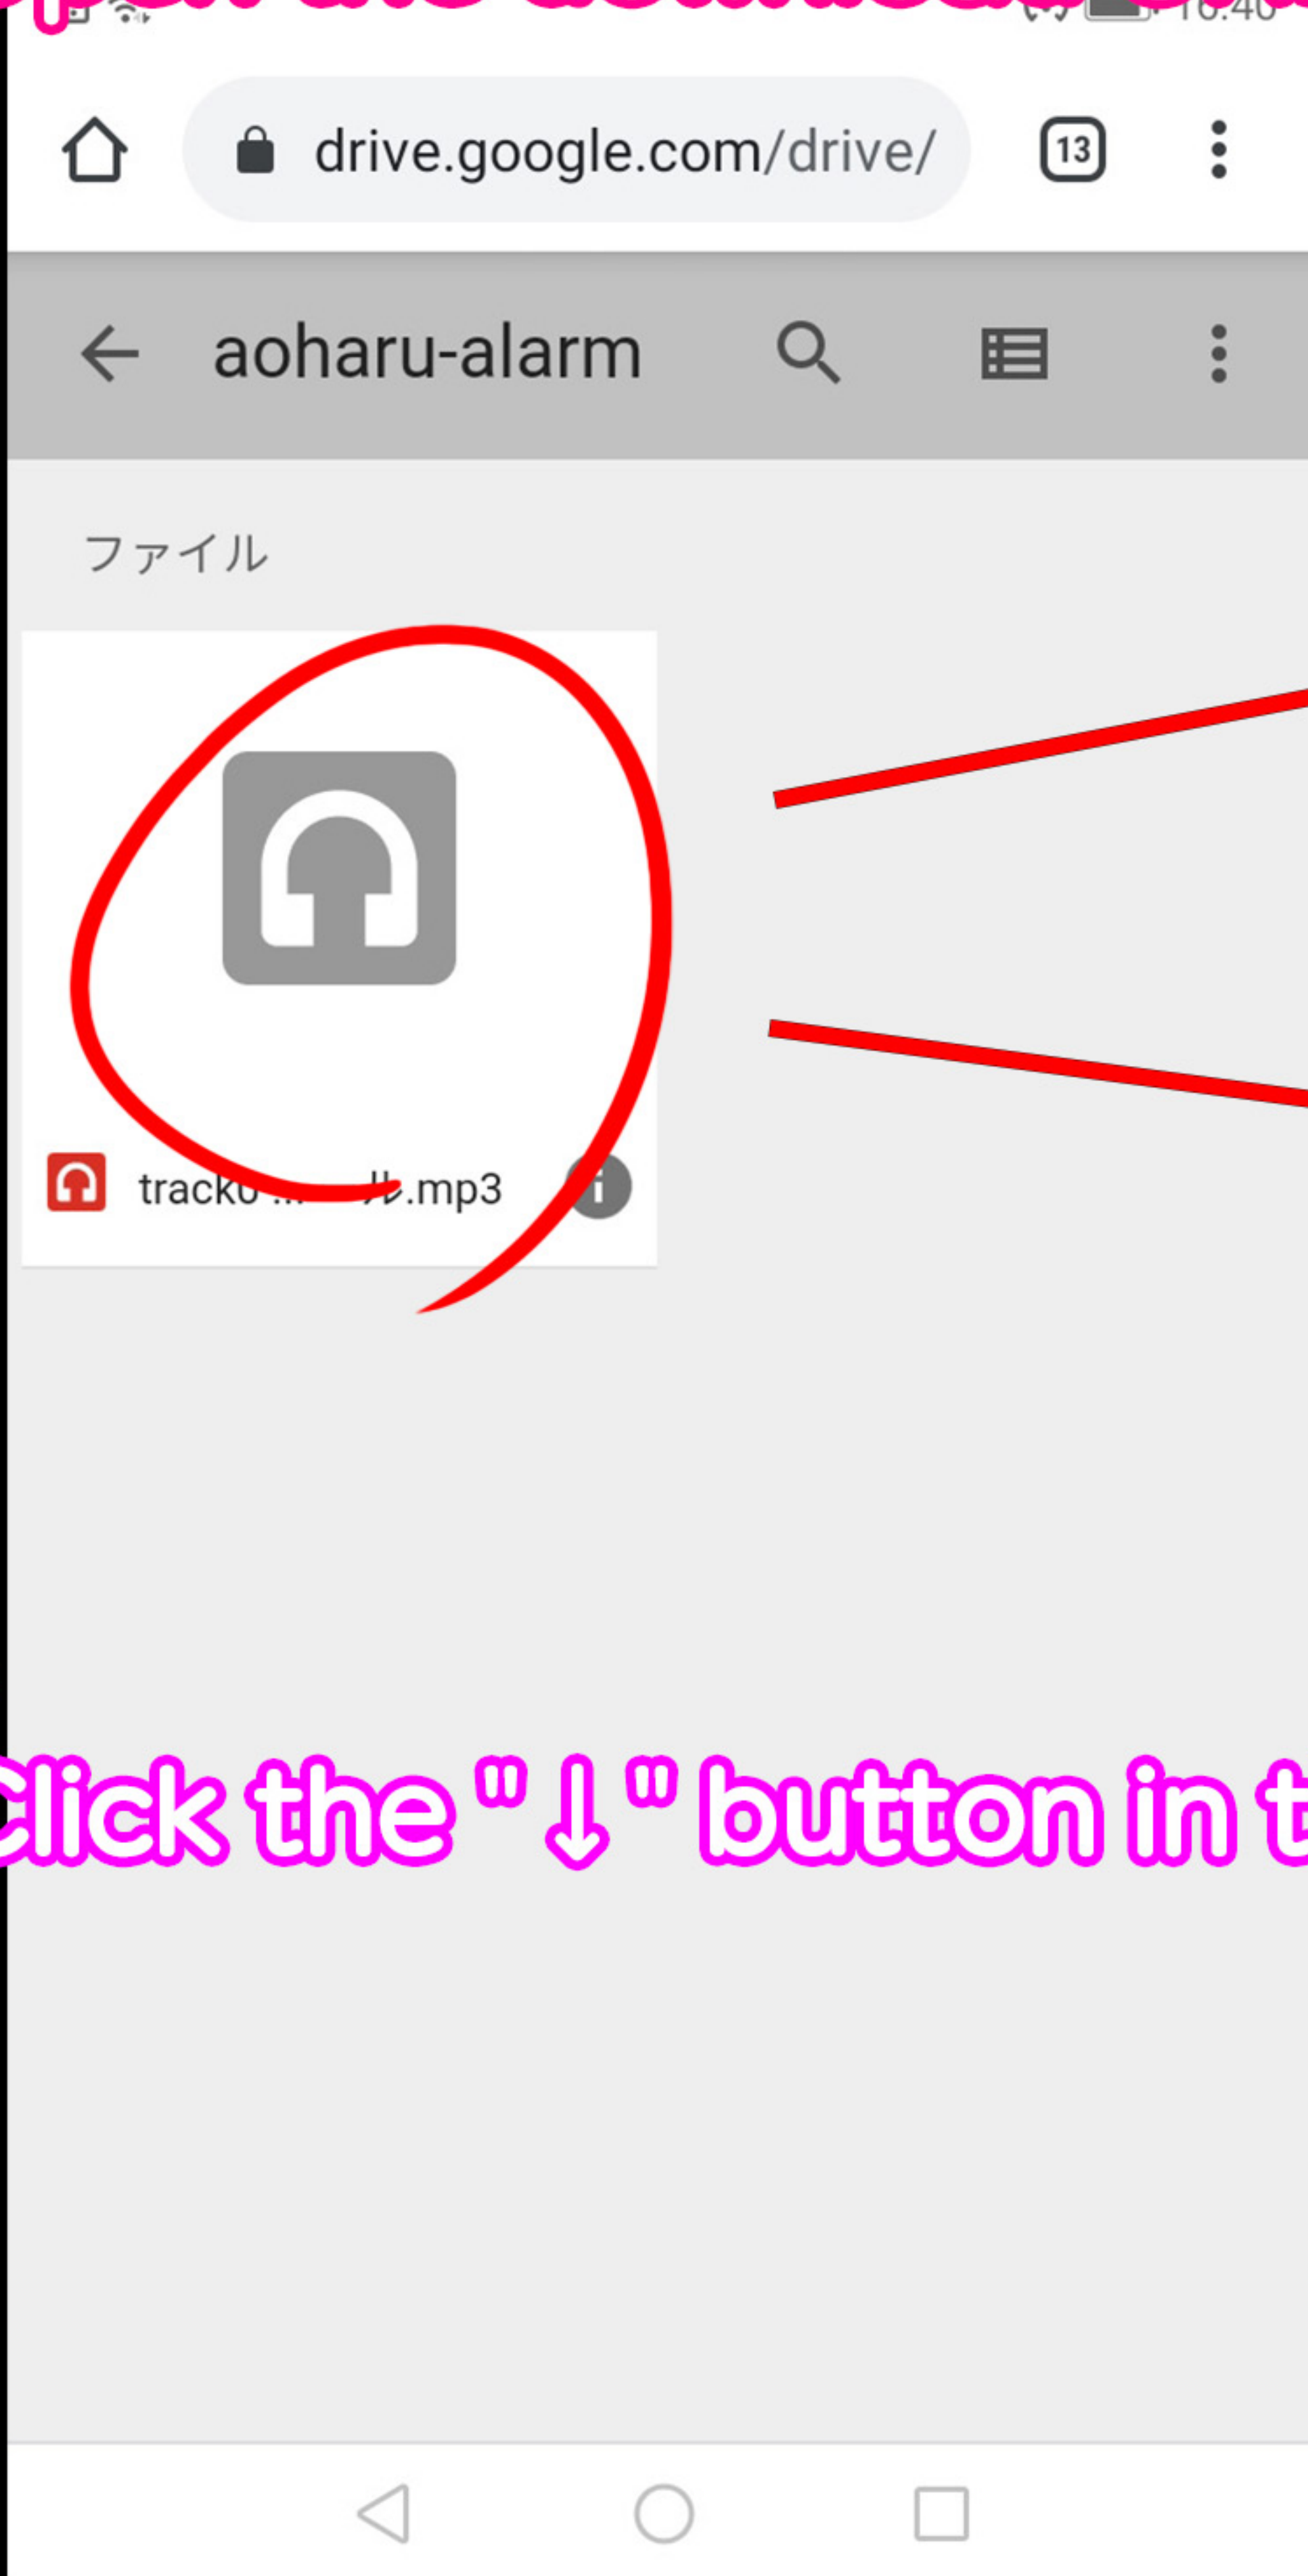

Disclaimer

Once you have downloaded the mp3 files from the Alarm Voice folder, we cannot guarantee compatibility with your individual settings. Please be careful.

1) Android Alarm Voice Settings

1.

Open the download URL in Chrome, then select "mp3"

2.

Click the "↓" button in the upper right to complete the download.

3. Sample Alarm Settings:

Clock > Alarm, then add a new alarm.
Select "Sounds" and then "Music on this Device".
Choose the file you have downloaded and set it as your alarm.

* Settings may change based on your device model and Android version.
Please check your individual settings.
